Project Development Phase
Model Performance Test

Date	10 December 2023
Team ID	
Project Name	Depression – A Common Mental Health Disorder
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Dashboard design	No of Visualizations / Graphs - 3 Dashboards with 3 visualizations on each dashboard. (Total 9 included)
2.	Data Responsiveness	*Description:* Measures the speed of the system's response to user queries and data analysis requests. *Metric:* Response time for fetching and processing user search history data
3.	Amount Data to Rendered (DB2 Metrics)	*Description:* Evaluates the efficiency in rendering and displaying search history data from the database. *Metric:* Render time and resource utilization when displaying historical search data.
4.	Utilization of Data Filters	*Description:* Assesses the system's efficiency in handling and applying filters to user search history for analysis. *Metric:* Processing time and system resource usage when applying various filters on search history data.
5.	Effective User Story	No of Scene Added - All the Visualizations on Dashboards are integrated as User Stories with a descriptive summary of what we can observe from those visualizations.
6.	Descriptive Reports	No of Visulizations / Graphs - Total 9 visualizations included that can be summarized using reports.
